## WORK EXPERIENCE

### Full-Stack Engineer

#### Flo Mobility - Autonomous 2 wheelers

10/2020 - Present

Bengaluru

- Created the main product from scratch to a stable production release.
- Collaborated with 3 awesome interns.
- Architected and Build the infrastructure for the system of teleoperation.
- Coded the server, frontend and the communication channel for the teleoperation.
- Created API's for the client facing app.
- Technologies Used: Node.js, Typescript, Django, Redis, Mongo, Socket.io

## SKILLS

Node.js

Django

Typescript

Javascript

Python

MongoDB

PostgresQL

## ACHIEVEMENTS

- Accepted as **Writer** for multiple **Medium publications** like
  - Javascript in Plain English
  - Dev Genius
  - Level Up Coding (GitConnected)
  - Learnitfree
- Selected in **Top 5 teams** from college for **Smart India Hackathon 2020**

## MY PROJECTS

### Domainport (domainport.io)

7/2020 - 9/2020

100 users

- Why this idea?
  - Domain flippers don't have technical knowledge to **create website**. Created a **no-code tool** for creating their portfolio.
- 3 step portfolio creation for **easy onboarding**.
- **Custom domain** using **Caddy Web Server** for white labelling.
- **Implemented** multiple **feature requests**.
- Tech stack: **Django, Caddy, Bootstrap, AWS EC2, AWS RDS**.

### Circle (Mycircle.ai)

05/2020 - 7/2020

3 Community

- Why this idea?
  - **Big communities** have **issues** to keep up the **engagement** and the **connection between members** is also low.
- **Learned Django** and **made the MVP** in **1.5 months**
- **Collaborated** with 1 other friend.
- **Redesigned the MVP** to **decrease the bounce rate** by **40%**.
- Tech stack: **Django, Nginx, Bootstrap, AWS EC2, AWS RDS**.

### Writtenly (Android App)

03/2020 - 4/2020

100+ Download

- Why this idea?
  - **While reading books**, I wanted to take **notes** but **noting** it down on paper or app **took time** and I would **lose focus**.
- **Learned Android** and **made the MVP** in **1 months**.
- Implemented **OCR** to get **Text from Image**.
- Used local **SQLite** database which was **synced with Firestore**.
- Tech stack: **Android, Java, XML, Firestore**.

## EDUCATION

VIDYALANKAR INSTITUTE OF TECHNOLOGY, MUMBAI  
BE Computer Engineering  
2017 - 2021

## INTEREST

**Sports:** Football, Cricket, Pool

**Music:** Learning Guitar

**Reading:** Mostly Self help/Non-fiction books

**Games:** Strategic/Multi-player Games
